

4X4 ISLAND TOUR

In Spanish we say: a mal tiempo, buena cara, which means: **keep on smiling** when the weather is bad. And although **Ibiza** is known for an average of 300 sunny days a year, it could happen that you're experiencing clouds or even rain. No need for sad faces! Come join us for a **ride in our 4x4 vehicle** and explore parts of Ibiza you've never seen before!

We at ROCKID have a great knowledge about the island and its treasures and therefore we'll serve you **amazing views, visit typical old towns, pirate towers, secret coves, salt mines and local markets..**

Needless to say that this tour in our 4x4 vehicle is also enjoyable with sunny weather. During the ride, we will make stops to take pictures, enjoy a walk, go for a swim, do some snorkeling and/or relax on a beautiful cala.

You have 2 options, you could go for a **sporty adventure day**, or if you prefer a more relaxed **sightseeing day** we will check what cultural events are happening on the Islands.

The icing on the cake is an incredible **PICNIC** made of organic products from the island. Our team is vigilant with **safety** and carries a first aid kit and water rescue gear at all times.
